RE: GET Engineering progress letter

Dear Mr. (b) (6)

Pursuant to Catherine Kessmeir's July 27, 2017 letter, GET would like to offer our progress to the action items Ms. Kessmeir outlined.

We continue to be members of the National Contract Management Association (NCMA), Association of Government Accounting (AGA) and Women in Defense organizations and attend courses and seminars. We utilize the Small Business Administration and San Diego Procurement Technical Assistance Center (PTAC) for additional guidance.

Last week I attended training on FARS, DFARS, Managing Flowdowns and Subcontract Compliance for Government Contractors sponsored by the Federal Publications Seminars. The instructors, Steven Tomanelli, J.D., LL.M. and Jeff White of J.A. White and Associates, are available to us as additional resources for these topics.

As a member of the Defense Industry Initiative (DII) on Business Ethics and Conduct Group, I continue to participate in their ethics trainings and interactive webinars. In June, I am attending the DII Best Practice and Compliance Forum in Washington DC to increase my knowledge in this area.

Last week, due to health issues Mrs. Tuttle resigned as the Chief Executive Officer. She will remain as the majority Shareholder and Chairman of the Board. I was nominated for the CEO position and have accepted. While we still lack sufficient revenue to hire a full-time Contract Specialist or Business Compliance Officer, I continue to have primary responsibility of contract management including compliance with our business ethics and code of conduct requirements. We continue to utilize the services of Ms. Ellen Williamson of MBO Partners as a consultant on significant Government Contracting matters. Further, our law firm of Devaney Pate Morris & Cameron provides outstanding legal advice on government contracting issues.

GET Engineering's Business Classification/Status is as a Small Business. This is stated as such in the System for Award Management (SAM) and on all Representatives and Certifications submitted to our customers.

It is GET's goal to continue to improve its operations and management. The board of directors fully supports this effort and intends to continue its emphasis on ethics and appropriate conduct with GET's government clients. We intend to be the best contractor in our area of expertise.

Please let me know if you need additional information or clarification and I will be happy to provide it to you. If you have any questions, please free to contact me at (b) (6) .

Sincerely,

Leslie Adams

Leslie Adams

Chief Executive Officer
